MEMORANDUM FOR: Acting Assistant Director
Intelligence Coordination

SUBJECT : Revision of DCID 4/2

From a discussion yesterday before the Bull Committee and from a reading of the revisions proposed to SE-36, it is clear that paragraph 1 on the present version DCID 4/2 needs to be expanded so as clearly to include [REDACTED] delivery of mass destruction weapons. Obviously this logically falls under the general phrase "taking direct military action", but General Cabell feels very strongly that our document should leave no doubt on the matter.

Will you try your hand at a draft and prepare to circulate to the Agencies for comment as soon as SE 36/1 is approved.
